From The Office Of The Field Vice President

Looking over the schedule for 1987 I see the opportunity for more great tournaments and the chance to make new friends. I intend to make every effort to make 1987 the best year yet for field archery in the state of Virginia.

Every time a "new" archer takes the "plunge" and joins our group we all win. With the second largest NFAA membership of any state in the USA we have an obligation to show the rest why we are so strong. The spirit and comradry at every tournament I attend attest to this. Traveling for hours across our great state to participate in a tournament and arriving to be welcomed by friends and soon to be friends is worth more to me than any piece of "hardware." Don't get me wrong, when it comes time to compete for the "hardware", I will most assuredly be in the midst of it. Everytime I participate in a tournament, whether I place or not, I win!

Be a winner! Participate! Make 1987 a year to remember. Only you as a VBA member can do this.

The 1876 Indoor, Open, and Closed Championships are shaping up to be as good or better than in '86!

The only way for them to improve is for you as VBA and NFAA members to participate.

I'll make a pact with each and every VBA member: You show up at the State Championship Tournaments and I, as Field Vice President, will do everything under my power to make sure the tournament is run as smoothly as possible, I'll be there!

See you there.

—John Street

From The Office Of V.B.A. Field Governor

—Kenneth E. Sorrels
V.B.A. Field Governor

To: Virginia Bowhunters Association
From: Art Macheski
Date: September, 1986
Subject: VBA State Closed Tournament

To open, let me say that I am new to archery as a sport; I have only been actively involved since this spring. My wife and I have enjoyed the help and encouragement of members at the several clubs we have shot at this season.

We both participated in the state closed tournament recently for the challenge of where we sized up to shooters in our classes. We enjoyed ourselves immensely and look forward to next year's tournament.

Last weekend at our club's annual shoot, I met several shooters who mentioned to me that the VBA Regulations were not followed at the state tournament.

My question is this: If a shooter shoots a score above his class on the first day of the tournament, is his class re-evaluated for the second day?

If this is true, there was a great injustice done to the shooters in "BHFS-L'B", as far as I see it. I am not looking for a trophy; but if the VBA rules were not followed, I would like to see the scores and placings in "Flight" reflect the *true* winners in my class (as well as any others which weren't re-classified).

To sum up, let me say if we don't promote honesty and fair play in tournaments, how can we expect to encourage new shooters to participate?

I would appreciate a response by letter or phone as to the VBA rules to the question at hand.

Art Macheski
6851 Cottingham Lane
Centreville, Va. 22020

Mr. Macheski:

I am very happy to hear that you are enjoying tournament archery in the state of Virginia. The sport needs more people with your level of interest.

I have, as of December 1, 1986 received a letter you sent to Nancy Lee Western. In this letter you mentioned that several shooters thought that VBA regulations were not followed. This is of great interest to me, as the Field Vice President of the VBA. There were a few questions raised and brought to my attention at the State Closed. These questions were answered by me or another VBA officer present.

All rules and regulations as stipulated in the NFAA handbook, the VBA Constitution and By-laws, and the State Closed contract were complied with. If there are other questions, they should be directed to my office.

The one specific question you raise in your letter concerning a shooter who shoots a score above his class on first day of the tournament: Is his class "Re-evaluated" for the second day? Answer: NO!

Archers will not be re-classified at the State Open or Closed Tournaments. This ruling came about through the regular June, 1986 meeting #119 of the VBA Directors from all clubs.

Your club's Director may or may not have voted on this, I have no way of knowing since I do not know what club you belong to. Your Director should have informed you through your club as to this change.

In the future, when you attend a State Shoot and you have questions, do not hesitate to bring them to my attention.

The scores and standings published in "Flight" do indeed reflect the true winners in all classes.

If you feel this ruling or others are in need of change, bring the change to the attention of your club and have your Director bring their recommendation in the form of a motion to the VBA meeting. It is my duty as the Field Vice President, as a tournament archer, and as an archer who loves his sport to promote honesty and fairplay. Without the influx of new archers, our sport suffers. As long as I am the Field Vice President, I will do my best to see that the rules and regulations set forth in the NFAA handbook, the VBA Constitution and By-laws, and the State contracts will be followed to the letter.

Thank you,

John H. Street,
Field Vice President

Club News

Hunter Education News

*By Tom Schanbacher,
State Director of
Bowhunter Education*

The new year is upon us and with that comes added responsibility for our Bowhunter Education Instructors. In the past two years there have been approximately 100,000 archery licenses sold. That means there are a lot of bowhunters taking to the field that are probably ill-equipped and under educated to the pitfalls and dangers of our sport. I must praise the outstanding work our Instructors have done over the past years. It has been exceptional, but our numbers are too few to tackle the task at hand. We need many more certified, willing, and competent Instructors to meet the demands of our fast growing sport.

If you are interested in becoming a Bowhunter Education Instructor we will be offering the Instructor training course on the Sat. of the March VBA meeting, that is Saturday, March 28, 1987 at the Mt. Vernon Motel Charlottesville, Va. There are some qualifications you must meet before becoming an instructor, they are:

- 1) Be 18 years of age.
- 2) Have a background which relates to bowhunting; with big game hunting experience.
- 3) Have completed high school or its equivalent.
- 4) Be free from criminal, fish, and wildlife law offenses.
- 5) Have completed the basic six hour bowhunter education course.

Pre-registration is mandatory so we may properly prepare for the course. If you are interested and willing to work hard without much thanks, at giving back to bowhunting some of what you have received, then you are the instructor we need. Please send a letter with your name, address, and phone number where you can be reached for conformation to Tom Schanbacher, 1680 Sheppard Ave., Norfolk, Va. 23518.

Buggs Island Archers

Buggs Island Archers 4th Annual Bowfishing Tournament will be held Saturday, April 25, 1987 at Buggs Island Fish and Wildlife Club, Clarksville, Va. 10:00 a.m.-5:00 p.m. (Species: Carp and Gar) Pre-registration fee of \$15.00, after

April 20, 1987, late registration will be \$30.00 per team (maximum of three persons per team) 75% of all entry fees will be given to the first, second, and third place teams with the highest total combined poundage. A *Big Fish* pot for each species will be given away \$2.00 per person for each category entered with 100% of each pot going to the person with the largest fish. Free refreshments will be furnished during the weigh-in from 5:00 p.m. to 6:00 p.m.

For more information, call Timmy Glasscock (374-08533) or Mickey Baugh (374-4296) or Bill Colgate (374-2375).

Augusta Archers

It is with great sorrow that I must announce to you today the passing away of a great part of Augusta Archers and VBA.

Grady Armentrout passed away this past December 29 following a lengthy illness. Although Grady's skills as an archer were limited, his dedication, inspiration, and willingness to help others attain their goals in archery can hardly be equalled. It was these qualities that led Grady to be admitted into the Order of The Golden Feather in January of 1962, making him one of the original three honorees.

Even though he was in great pain and couldn't participate himself lately, he usually found a way to be at shoots and cheer others on. We at Augusta Archers sincerely hope Grady gets a real golden feather someday he so richly deserves.

Thank you.

Augusta Archers

Two Rivers Archery Club

Indoor Shoot—Thursday nights. Northern Va. 4-H Center, Harmony Hollow at Front Royal, Va. Will begin at 7:00 p.m. — . Cash prizes each week.

Two Rivers Archery Club Annual Banquet will be held at South Warren Fire Hall, Bentonville, Va. February 28, 1987. Social Hour will be 6:00-7:00. Dinner is 7:00 p.m.-8:00. There will be an Awards Program with a Dance (9:00-1:00 a.m. following). Music is by Mystic Sounds.

For more information call (703) 635-8128.

Massanutten Archery Club

Massanutten Archery Club is holding Indoor Archery Team Shoots every Tuesday night and Open Shoots are being held each Sunday starting at 1:00 p.m. at the Elks Hall in Front Royal.

Massanutten Archery Club has started on a building fund program that will result in a building being erected on the club grounds, that will be used for indoor shoots. Complete information will be provided as it is decided.

The club will be having a Pin Shoot on April 12, 1987. Registration starts at 8:00 a.m. Come out and have a good time.

News from Zone #3

By Irvin Bodkin

The new officers of The Bowhunters of Rockingham for 1987 are as follows: President, Dale Mathais; Vice President, Lowell Nesslerodt; Secretaries, Cindy Wittig and Marie Pennington; Treasurer, Irvin Bodkin; VBA director, Jerry Middleton.

We held our annual winter sports banquet at the Harrisonburg Moose Lodge with 150 members and wives attending. A buffet supper was enjoyed by all.

At the banquet we gave out our annual "Ross Garletts Awards" for those members killing big game animals this past season. Dale Wenger and Jerry Blank received awards for killing elk. Jerry Blank also took the big bear award. Two members bagged wild turkeys, but Owen Shifflett came home with the biggest turkey, a 19# gobbler, for the turkey award. The big carp award also went to Owen Shifflett.

The club had 56 members killing white-tail deer. Lowell Nesslerodt received the big buck award with his big 8 pointer. The club had a combined total of 97 deer killed. We wonder if any other club can top this.

The club's roving scalp trophy was won by Ronnie Layman. After the banquet a talk was given by Stuart Porter of the Wild-life Center in Weyers Cave on the rehabilitation of game birds and animals.

The club is starting indoor shooting in the indoor range with league shooting each Monday and Thursday and open shooting every Sunday. A new floor and a new kitchen have been installed at the indoor range and Club President Dale Mathais urges all members to participate in the indoor shooting.

Officers for Nomination 1987-88

The nominating committee would like to remind all VBA members that all offices are open to nomination from the floor at the March meeting. If you know of a qualified person who wants his/her name put on the ballot, please feel free to do so. Remember, this is a mail ballot, so don't forget to mark your ballot and mail it in.

Nominating committee,
C. D. Miller, chairman
Earl McCauley
Micky Baugh

President

Earl McCauley
Nominee for President

My name is Earl McCauley, and I am running for the office of President of your Virginia Bowhunters Association. I have been actively involved in archery since 1955, starting with the Potomac Archers of Williamsport, Md., and the Creek Waltonian Archers of Hagerstown, Md. In 1974 I was transferred to Front Royal, Va. Upon arriving in Virginia, I immediately joined the Two Rivers Archery Club of Front Royal.

I have been on governing bodies of several organizations, they being Exalted Ruler of B.P.O. Elks #2382, Front Royal; President, Two Rivers Archery Club 2 years; President, Massanutten going into 3 years; and currently Worshipful Master of Unity Lodge #146 AF & AM, of Front Royal. I am actively seeking the office of President of your VBA and if elected, would uphold your constitution and by-laws to the best of my ability.

Richard L. Hall
Nominee for President

Richard "Dicky" Hall, born January 10, 1947. That's right, I'm 40 years old and I have spent over half my life in archery.

I'm a member of the Manahoac Bowmen Archery Club. I have served as president tournament chairman and range captain. I have also served as VBA Delegate for 6 years. I have served as Field Vice President of VBA for 4 years and Executive Vice President for 2 years.

The real issue here is to get out and vote. There are over 1700 members in the VBA and at the last election the officers were elected by 400 members. That is less than a 1/4 of the members electing the officers of VBA. So please get as many members as possible to vote.

Exec. Vice President

Sam Gay
John Bauswell

Ann R. Boyd
*Nominee for Executive Vice-President
and "Flight" Editor*

I have been a member of the VBA and NFAA since 1968. During these years, I have won numerous titles both on the State and National level as a Freestyle shooter, but my most rewarding experiences have been working with the VBA in various areas.

I have served previously as Executive Vice-President and was "Flight" editor for about 8 years.

I feel that during the years which I did "Flight" it was an informative and useful publication for all VBA members, covering both field archery and bowhunting articles and events.

As my record speaks for itself as to what I accomplished as Executive Vice President and editor of "Flight", I would like the opportunity to serve once again.

Conservation Vice President

Steve Hiner

Tom Schanbacher
*Nominee for Conservation
Vice President*

I am 39 years old and have been an active bowhunter for the past 11 years. I joined the Princess Anne Bowmen and the VBA in 1980 to improve my archery skills, and became interested in tournament archery as well. Since 1980 I have been active in bowhunting as well as tournament archery. I have held the offices of president, vice president, and range captain of the Princess Anne Bowmen, as well as serving on the ways and means, safety, trophy, and tournament committees. I've also served as huntmaster and am a member of the exhibition team. I am currently the VBA delegate for our club and have been for the past three years.

I have been a bowhunter education instructor since 1983 and state director of the I.B.E.P. for the past two years. As well as being a member of our local archery club, the VBA had the NFAA, I am also member of many other hunting, fishing wildlife, and archery clubs and associations. A few of these organizations are the Virginia and National Wildlife Federations, the NAA, the Professional Bowhunters Association, the NRA, and the VAA. I have also worked with the Virginia Game Commission in coordinating and working the Virginia Hunter Education Championships,

Hunting and Fishing Day observances throughout the state, and the Virginia Hunting show in Richmond.

Having a good knowledge of how the VBA works, as well as other state organizations, I feel I am qualified for the office I seek and, if elected, will uphold the responsibilities of this office to the best of my ability.

Hunting Vice President

David Proctor

Nominee for Hunting Vice President

Presently VBA Hunting Vice President, member and past president of Bowhunters of Rockingham, member NFAA, member of West Va. Bowhunters Assoc., and associate member of P.B.S.

I have been VBA Hunting Vice President for the past 8 years and a member of VBA for 15 years. During my terms as Hunting Vice President I have regularly attended Va. Game Commission meetings representing the VBA.

If re-elected I will continue to attend Va. Game Commission meetings and any other activities that might affect the sport of bowhunting. I will continue to represent and support the VBA and bowhunting.

Field Vice President

John Street

VBA Field Governor

Kenneth E. Sorrels
Nominee for Field Governor

I am presently employed by Adkins Surveyors and Associates, Inc. of Wise, Va. as a Party Chief. I am currently a VBA and NFAA member and have been for thirteen years. I was a member of Manahoac Bowmen, Sherwood Archers, and Blackwater Bowhunters before moving to Wise and joining the Bearcreek Bowmen.

I have shot on most of the VBA ranges, attended 30 State Championships, 4 Mid-Atlantic's and 3 Nationals. With my experience serving various clubs and competing on a regular basis I feel I would make a good Field Governor.

I am presently ending my first term as Field Governor and will serve the VBA to the best of my ability if re-elected.

Treasurer

C.D. Miller

Recording Secretary**Annette Brunk****Gail Lefever***Nominee for Recording Secretary*

My name is Gail LeFever. I have been involved in archery since 1982. I am currently president of Warwick Bowmen Archery Club located in the Newport News City Park. I have held this office for 2 years. Prior to this office I was Corresponding Secretary for 3 years.

I am currently acting Recording Secretary for the VBA.

I can type and I do daily in my employment helping to transcribe charts.

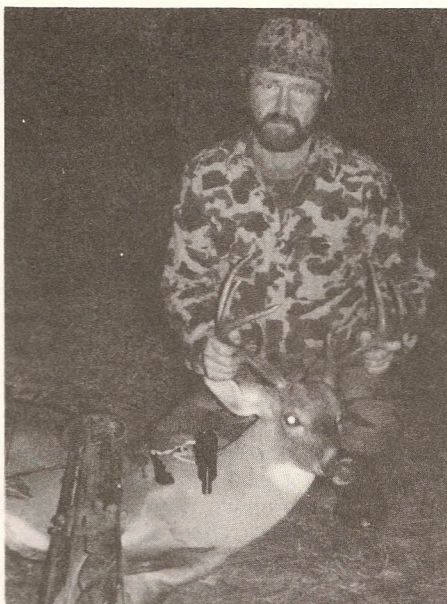

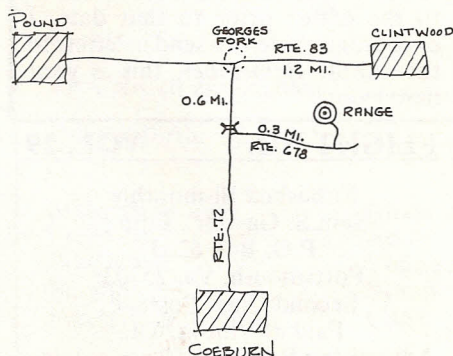

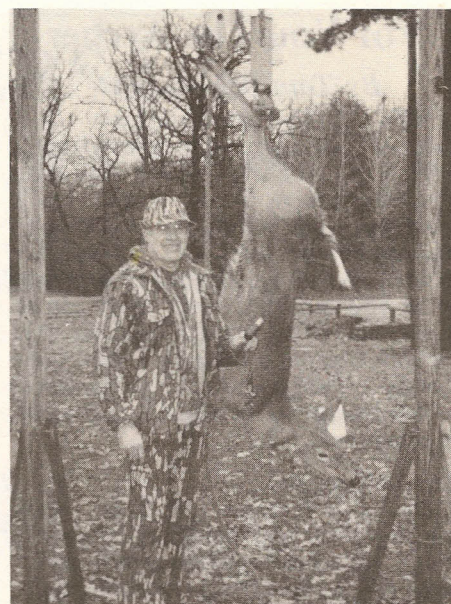

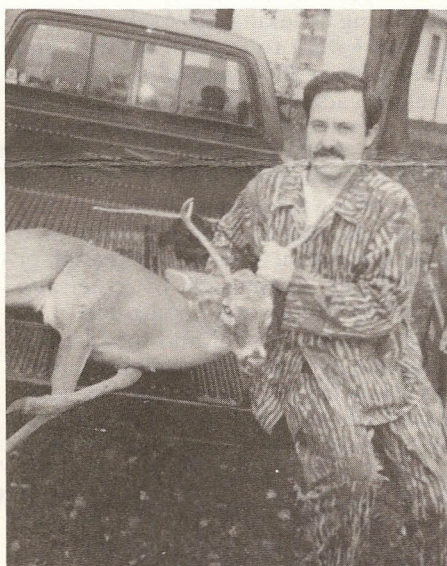

Archery is not as well known as I believe it should be. I have been involved trying to promote our sport by helping the boy scouts learn archery, participating in an open exhibit at the Yorktown Appreciation Day as well as holding Warwick Bowmen Day to let the general public know archery is a family recreation, a challenge and helps with hunting regulations in Virginia.

I would appreciate your vote so I can continue to promote target archery and bowhunting in our state by serving as Recording Secretary at the state level.

Thank you.

For You The Archer

By Tom Schanbacher

This is the first installment of a column I hope to include in each Flight. I hope to make this column enjoyable and informative to all archers, and I plan to include tuning tips, safety tips, and any enjoyable tidbits I can find. My problem is that I am no expert or writer so as you can see I need your help to make this thing work. To make this column fresh and exciting I need your stories, questions, answers, comments, or tidbits sent to the address at the end of this article.

Tips to Tune By:

Probably the most important factor for good shooting and consistent accuracy is the selection of the proper arrow shaft for your shooting style and needs. In shaft selection one of the most important yet most misunderstood factors is arrow spine. For this writing we will only look at how to choose the right spined shaft for you.

Easton Archery define the spine (stiffness) of an arrow shaft as "the measured deflection, in inches of the shaft when depress by a 879.7 gram weight at its center." This means that arrows of different sizes have different stiffnesses or different spines, so depending on the bow weight being shot an arrow will bend differing amounts upon release. What we are looking for is an arrow that will bend the proper amount to absorb shock of the bow and counteract the various forces that come into play when an arrow is shot. When the proper spined arrow is found we will have a set up that is more forgiving, that is, proper spine will help eliminate wobble when the arrow leaves the bow giving you better accuracy.

Now that we think we know what spine is, and what it does, what factors must we take into consideration in determining the right shaft for us?

The most obvious factors are the type of bow used (compound, recurve, or cam) and the peak weight or holding weight of the bow. Another important factor is the length of your arrow shaft. You may be shooting a 30 inch shaft with good flight and accuracy and for some reason you decide to cut one inch off and all of a sudden you can't get the arrow to fly, the reason for this is that as you shorten an arrows length you increase the arrows spine (make it stiffer), even if you have not changed the arrow's size.

The next factor we are going to look at is arrow size. We will only be looking aluminum shafts since they are the most common shaft in use today. Most aluminum shafts are marked with their size, the size is a series of numbers located at

the top 1/3 of the shaft. A shaft marked 2018 means it has a diameter of 20/64 and a wall thickness of 18/1000 so a 2117 is 21/64 diameter and 17/1000 wall thickness and so on. Okay, what do these numbers have to do with spine? Wall thickness gives a shaft weight, and diameter gives it rigidity. Spine is more affected by length and diameter as a shaft than it is by its weight or wall thickness.

We now see we could have shafts of basically the same weight with different spines, or we could use diameter to keep spine consistent and shoot a lighter shaft for increased speed.

Now lets find the proper shaft for our needs. We first go to a spine chart or arrow selection chart, these charts can be found in most archery supply catalogs or your local archery shop, and locate the shaft recommended for our draw weight and arrow length. After locating the recommended shaft we should experiment with shafts of lighter and heavier spine to find the shaft that groups best for your set-up. I usually do this testing by taking 3 to 4 arrows of the 3 spines I want to experiment with and shoot them at 20, 40 and 60 yards. I then measure each 3 or 4 arrow groups of the same spine with a tape measure at each distance. When I do this test, I am not concerned about the arrows hitting the center of the target only how well they group. The reason I am not concerned about center shot is that arrows of lighter spine impact to the right of center and heavier spined arrows impact left.

After we have shot and measured a minimum of three sets we add the measurements for each spine together. Low score wins, the shaft with the smallest total measurement has grouped best over the three distances and will probably be the most forgiving over different distances and uses.

A few things to remember are:

- 1) A slightly heavier spine will usually group better and be more forgiving;
- 2) When you change points, inserts, or broadheads you will change the arrows spine and;
- 3) Don't be afraid to experiment to find the best shaft for your needs.

Safety Tips:

With the tournament season upon us, here are some safety tips reprinted from the "Field Archer's Safety Code" by Ken Simons:

1) Always call "timber" before starting to shoot as warning to others who may not have cleared the shooting line or target area.

2) Always leave one member of your party standing in front of the target while you are looking for lost arrows as warning to others following on the

course. If you are alone, leave your bow.

3) Never release an arrow when you cannot see where it will land; never "flight shoot" an arrow in the woods. Never shoot straight up.

4) Never shoot a broken arrow. Inspect each arrow carefully as you retrieve it.

5) Always have your arrows marked with your name and address.

6) Remember at all times a bow and arrow is a deadly weapon, as dangerous as a gun in the hands of an irresponsible person.

7) Never attempt to demonstrate your skill by using a person as a target, or permitting another to hold the object at which you shoot.

8) Never brace another's bow without his permission, and never draw it under any circumstances.

9) Protect your sport by being careful and sure when you shoot.

Bowhunter Safety:

With spring turkey season almost here remember more hunting accidents occur while turkey hunting than any other kind of hunting. Please be safe, if you use a decoy don't take it into the woods unless it is covered, hunters have been injured while carrying a decoy into the woods uncovered.

Another tip the game commission gave me, is to use florescent trail marking tape and tie it around some trees near your tree stand or ground blind to let other hunters know you are in the area.

Thought For Today:

Those who bring sunshine to the lives of others cannot keep it from themselves.

Sir James Barrie
